

CPA FLIGHT LINES

Vol 33 Issue 6

June 2016

Wichita's Doc, the B-29 bomber brought back to life over many years by volunteers in a hangar across from McConnell Air Force Base, now has its FAA airworthiness certificate after three months of inspections and has done slow taxi tests. A flight is still a month or more away.

<http://www.b-29doc.com/2016/05/21/photo-gallery-docs-airworthiness-celebration/>

President's Message

CPA President

Gary Tobey

June and the Critical Days of Summer

June, July, and August have great flying weather, but are the months with the most accidents and incidents. Just be especially careful in increasing your competency and currency before you launch off into the adventures of summer. If you are taking family or friends to enjoy the thrill of flying, be sure

to calculate your weight and balance. If you are flying on a hot day, check the density altitude. Remember that most of us are flying low performance engines, wings, and propellers in the high performance Colorado environment. Do it, but do it carefully. When possible, go early. It's cooler and thunderstorms aren't yet lurking.

The Seaplanes are Coming! Ray Hawkins of the Seaplane Pilots Association and CPA has rescheduled (bad weather in May) the historic first Colorado Splash-In for Lake Meredith on June 18. He has arranged transportation from the La Junta airport to the lake if you are flying your land plane to the event. This is a good first step to establishing seaplanes in Colorado. Ray is already launching efforts for a Colorado bill supporting seaplanes next year at the State Capitol. We must continue our support at every lake and puddle.

On the federal level, it's now up to the House of Representatives to give pilots support and relief. The Senate passed a great FAA Reauthorization Bill on April 19. The FAA runs out of authorization on July 15. The bill is attracting opposition from the "separate control and user fee" proponents in the House. Email your Congresspersons to say they must SUPPORT this Senate version that includes the Pilot's Bill of Rights 2 and simplified medical certificates. They must OPPOSE other bills, including the part of H.R. 4441 to privatize Air Traffic Control and fund it through user fees.

Fly-ins. Where are you flying in June 2016? How about Canoe the Niobrara, LaGarita and Hooper Pool, and the Flaming Gorge? And see all the other June items in the Events Calendar in this issue of CPA Flight Lines.

OK, how about dull ideas? Vice President Bill Totten is still awaiting your advice on how to make CPA more valuable to you. Don't make him wait any longer. Contact him now with your suggestions. wetotten@msn.com

Wear those CPA wings proudly! Get a Colorado Pilots Association logo shirt or jacket at Land's End. ces.landsend.com/Colorado_Pilots_Association

Gary

**The First Ever Colorado Splash-In
June 18, 2016 at Lake Meredith.**

Please spread the word to get as many people to the event as possible. We would like to see between 10 - 15 seaplanes and a spectator crowd of between 500 and 1000.

- If you plan to attend, please reply to Ray Hawkins with the following:
- Number of Attendees in your group
- Arriving by Car or Aircraft. If by aircraft, are you willing to provide any rides ...are you willing to demonstrate some water operations.
- If staying overnight, will you be camping or staying at a local hotel (lodging is extremely limited in the local area)
- Would you like to open a booth at the event (Sales or informational)

The lake is open to seaplanes so you can get your currency requirements prior to the event. All pilots will need to land at LHX and perform invasive species inspection (self-inspection) and a submit an indemnification letter prior to arrival. I have templates for the indemnification letter, or you can have your insurance company email a coverage letter naming the Lake Meredith Company as additional insured.

Ray Hawkins

Fort Lancaster or Fort Lupton? CPA Members Left to Decide

Saturday, April 23 dawned a bit cloudy with weather forecaster's promise of mid-afternoon high winds. That didn't deter a small number of aircraft arriving at the Platte Valley Airport and a large number of vehicles that drove directly to the South Platte Valley Historic Society's reconstruction of Ft. Lancaster (later known as Ft. Lupton). Thirty eight CPA members, family and friends made the trek to visit one of the Front Range's best kept secrets. This historic old fort, trapper's cabin, one room schoolhouse, gently restored farmhouse, and black powder musket range comprise a wonderful step back into the past. A number of dedicated volunteers not only built the fort from scratch but lovingly restored the trapper's cabin, schoolhouse and farmhouse and now, dress in period clothing to aid visitors in envisioning life in the 1800's in Colorado's Platte River valley.

One of the South Platte Valley Historic Society's volunteers dressed in period clothing speaks to part of the CPA group while touring Ft. Lancaster.

Fly-in/drive-in attendees were treated to an introductory video presentation in the visitor's center and then were divided into smaller groups to engage the volunteers during the several tours that were offered. Yes, those who wanted could learn how to throw a tomahawk. Following the morning's tours everyone convened to the beautiful, ac-

curately detailed "Great Room" to enjoy a bison BBQ provided by the SPVHS volunteers.

One doesn't need to drive or fly hundreds of miles to one of Colorado's other historic forts to enjoy a captivating time at a first class facility when there's one right here in your own back yard in the Front Range. Don't miss out of any of the upcoming CPA-sponsored fly-ins this flying season. Visit the CPA website and check out the list. There are lots of fly-ins to suite just about anyone's taste. And, if you've never been to a CPA fly-in, don't let that deter you. Fully half of the registrants at this particular fly-in were first time fly-in attendees. Wow

This early 1850's trapper's cabin was donated to the Historic Society by CPA member Bob Kinney & his wife Shawn.

**The New Mexico Pilots Association's (NMPA)
Annual Work Party
Negrito (0NM7) Airstrip 6/18/16.**

We will be arriving late Friday afternoon (6/17) and departing early Sunday morning (6/19). The work party is held to insure that the Negrito airstrip is maintained and in good shape for the fall fly-in in September (see the NMPA calendar for details).

If you are planning to attend, please let Larry Filener (lfilener@filenercpa.com) know in advance so we can bring enough food. We will bring along burgers for Friday and Saturday night and breakfast for both Saturday and Sunday morning. You will be on your own for lunch and snacks. We will also bring water. Participants should bring gloves, shovels, rakes and dress accordingly.

Remember Negrito is at 8,000 feet. There is always the possibility of afternoon showers and it is cold in the evenings. Hope to see you there.

For more details and airstrip information visit the NMPA website
<http://www.nmpilots.org/events>

New University Aviation Program in Colorado

Colorado Mesa University and Western Colorado Community College will launch a new associate degree program designed to prepare students for a career in aviation this fall.

Students who successfully complete the two-year program, which includes traditional classes as well as ground and flight training, will graduate with about 240 flight hours and will have earned a private pilot's license, a commercial pilot's license with an instrument rating and will be certified as a flight instructor. That is all in addition to an Associate of Applied Science in Aviation Technology degree.

"It has taken us some time to get this off the ground but I believe giving our students the opportunity to get a pilot's license and to prepare for a career in aviation is well worth the time and effort it has taken to garner all the necessary approvals," said CMU President Tim Foster. "I think the availability of both the program and the availability of the qualified pilots it will produce contribute greatly to the potential for economic growth in western Colorado specifically and in the state as a whole."

The program director is Dan Ashton, a retired Air Force Lieutenant Colonel and a command pilot with more than 4,000 flying hours as an aircraft commander, instructor pilot and flight examiner. In addition to his military and flying experience, Dan is a CPA with master's degrees in business administration and in aeronautical science. He has been an assistant professor teaching accounting at CMU since January 2014 and has taught at several other universities.

The flight and ground courses in the program have been approved by the FAA. The program has also been approved for federal financial aid and most of the classes are eligible for funding through the GI Bill.

Classes will be held at WCCC and at Colorado Flight Center at the Grand Junction Regional Airport.

Return to West Yellowstone!

Enjoy a weekend of camping, hiking, biking & just relaxing under the stars in "Big Sky Country" **July 22 - 24**. Watch for email flyers & registration flyer in the July issue of FLIGHTLINES. Set aside this weekend to join us at this "pilot only" campground where you camp in the pine forest within feet of your airplane. Check out KWYS--the Gateway to Yellowstone. Contact Bob Kinney at Twinlake1@aol.com or 303-887-3328

Fair Winds, Mark

Mark Van Tine was the subject of Picture of the Day in General Aviation News on May 19 as he retired from Jeppesen after 35 years with the company.

The photo shows Mark leading the formation of the Glasair Sportsman airplane built by the 2013 high school student winners of the GAMA/Build A Plane Aviation Design Challenge through the mountains of Idaho during fire season.

Say, Mark...have you considered joining Colorado Pilots Association? We could use another active volunteer who knows everyone in General Aviation!

Publication Notice - A Reminder

The Incredibly Tiny, Fine Print

Articles for CPA Flight Lines are sought from members and other organizations. Stories and articles can include flying tips, rebuilding and restoration experiences, special trips, activities, etc. All articles and letters should be sent via e-mail to:

email: newsletter@coloradopilots.org

Do not send formatted material, send only plain text. If you send formatted articles I'm just going to remove all formatting and both of us will have wasted time.

Photo formats must be either JPG or PNG.

Lesser quality cell phone photos don't reproduce well in the printed version of the newsletter. If you send photos with captions, identify which photo goes with which caption. Provide the file name of the photo, e.g. DSC_0042.jpeg or IMG_1920.jpeg, with the caption.

Material for publication will be accepted up to a deadline of the 15th of each month.

CPA Flight Lines shall reserve the right to accept, refuse, or edit any material submitted. Publication of articles and opinions in CPA Flight Lines is not an endorsement by the Association, nor does the Association assume responsibility for the accuracy of the information contained in CPA Flight Lines.

Longmont Airport Expo – June 25, 2016
America's Aviation Celebration
Into the Wild Blue Yonder from the Mountains to the Prairies

On June 25, 2016, the pilots and residents of Longmont and surrounding communities are invited to our summer event that showcases the Longmont airport and all the fun and adventure of general aviation. The format is a positive family-oriented community event with displays of unique aircraft including the Commemorative Air Force C45, local and regional vendors, activities for children, aerial, skydive and unmanned aerial systems demonstrations, food, fun and excitement for all.

Join us in celebrating our active service members and veterans with the American Legion Post 32 Longmont Honor Guard, Pledge of Allegiance, 3 Volley Rifle Salute, and Playing of Taps honoring those who have served.

Meet Longmont resident, Maj. Fredric Arnold (ret.), Sole Surviving Member of his WWII P-38 Class of 42J Group, who is sculpting a monumental Bronze Sculpture in Memory of the more than 88,000 WWII US Airman Killed in Action and will be exhibited in the National World War II Museum in New Orleans.

Please find your way to Longmont (KLMO) for a Pancake Breakfast from 0700 to 0900 local. Check the NOTAMS as the airport will close at 1045 and reopen at 1300 local. Bring your own Tie Downs as flying in traffic will be parked on grass surfaces. Be sure and check out the latest developments on our website – LMOexpo.org

FAAST Blast

Regulatory Relief to GA Pilots

In a Notice of Proposed Rulemaking (NPRM) issued on May 12, 2016, the FAA aims to provide some regulatory relief for pilots in several areas of general aviation training and certification. Among the proposed changes is an increase in the allowed use of aviation training devices with regard to instrument training and instrument recency experience requirements.

This rulemaking also addresses changing technologies by accommodating the use of technically advanced airplanes as an alternative to the older complex single engine airplanes for the commercial pilot experience requirements. Additionally, the NPRM would broaden the opportunities for military instructors to obtain civilian ratings based on military experience, would expand opportunities for logging pilot time, and would remove a burden from sport pilot instructors by permitting them to serve as safety pilots. A grid summarizing all of the proposed changes and the effected regulation parts is included with the NPRM.

To view the proposed rule as well as provide comments (comment period open until Aug. 10, 2016), go to

<https://federalregister.gov/a/2016-10168>

How Do I Transition from PTS to the new Airman Certification Standards (ACS)?

If you are an applicant, an instructor, or evaluator wondering how the PTS-to-ACS transition will work, check out the FAQs at

http://www.faa.gov/training_testing/testing/acs/

If you have a question not covered in the FAQs, email the FAA's newly-established ACS Focus Team:

CANOE THE NIOBRARA RIVER IN VALENTINE, NEBRASKA

June 4-5, 2016

Join us for a half-day canoe trip down the Niobrara river valley, one of the top 10 canoeing rivers in the U.S. Fly to Valentine, stay at the Niobrara Lodge, enjoy the river scenery and the company of your fellow CPA members.

Plan on flying in to Miller Field (KVTN) on Saturday morning - 277 nautical miles from KAPA. The airport has limited tie-downs, so please bring your own. Current fuel price is \$3.55/gallon for self-service. We will be using the airport's courtesy cars to shuttle people to the hotel throughout the morning. The last shuttle will leave the airport at 10:00 a.m. **REMEMBER THAT VALENTINE IS ON CENTRAL TIME SO PLAN ACCORDINGLY.**

Call the Niobrara Lodge at (402) 376-3000 to reserve your room. Mention you are with Colorado Pilots Association for the group rate of \$100/night plus tax. Breakfast is included in the rate. Their cancellation policy is 24 hours' notice, check-in is at 3:00 p.m., check-out at 11:00 a.m. They will be able to store your luggage when you arrive from the airport on Saturday. There are also a few rooms set aside for Friday night if you want to come in early.

We will be leaving the hotel at 11:00 on Saturday for the canoe trip with Outlaw Canoe outfitters. Sandwiches, chips and water will be provided and will be handed out as you board the bus for the ride down to the river. If you bring other beverages, please be aware that no alcohol is allowed during the first two hours of the trip. The approximate four-hour trip will start at the Fort Niobrara Wildlife Refuge and finish at Brewer Bridge. We'll plan to stop at Smith Falls (Nebraska's tallest!) for our lunch break.

The bus will return us to the hotel late afternoon with the usual happy hour to follow (BYOB). Walk to dinner at the Peppermill Restaurant, reservations are at 6:30, individual checks.

Breakfast at the hotel on Sunday morning and shuttle back to the airport for your return flight home.

Any questions, give us a call at (303) 503-7198.

Flaming Gorge Reservoir Fly-in

June 24-26, 2016

Come join us for a day of floating on pontoon boats on the reservoir.

For thousands of years the Green River carved its course through the colorful rock formations of the area to form the deep canyons that now serve as the geographic marvel of Flaming Gorge National Recreation Area, with its 91 mile long lake, the Green River, and its deep canyons.

Fly into Dutch John Airport (33U), Utah with a paved runway of 6000 x 60 feet. 33U is only 200 nm west of KBJC. Arrive on Friday, June 24 and the Flaming Gorge Lodge will pick us up. The afternoon is at your leisure. There are many hiking and biking trails that leave from the Lodge, including the Bear Creek Trail. It is a two mile hike to a magnificent overlook of Flaming Gorge. Saturday morning we will take the shuttle to the Cedar Springs Marina where we will board our pontoon boats (no more than 10 people per boat) for a day of boating on the Flaming Gorge Reservoir. Bring your lunch and drinks on board to see as much of the 91 miles of reservoir as you like. There is a convenience store at the marina to buy ice, drinks, and chips.

Call the Flaming Gorge Lodge (435) 889-3773 to reserve your room **NO LATER THAN MAY 31**. Rooms are reserved under Jan McKenzie; rate is \$125/night + tax. Cancellation policy is 48 hours.

Friday night we will have our usual happy hour (BYOB) and bring an appetizer to share. Saturday night we have a 6 p.m. reservation at the Lodge restaurant.

Please send in registration no later than June 15, 2016

Detach and return this portion with your check payable to CPA for \$48 per person. Includes Pontoon rental and shuttle to and from the marina. Send to: Jan McKenzie, 40697 Remington Rd, Fort Collins, CO 80524.
